Crohn's Colitis Conference B A H R A I N

Why CCCB is Valuable?

The Crohn's & Colitis Conference Bahrain (CCCB 2019) is an energetic scientific event poised to create awareness, provide practical tips and new updates, and share exciting developments in the clinical management of Crohn's Disease and Ulcerative Colitis. CCCB 2019 will be held in the Kingdom of Bahrain on 19th and 20th April 2019 at Bahrain Conference Centre, Crowne Plaza Hotel under the patronage of His Excellency Lt. General Dr. Shaikh Mohammed bin Abdullah Al-Khalifa, Chairman of the Supreme Council of Health.

Inflammatory Bowel Disease (IBD) and particularly the Crohn's Disease and Ulcerative Colitis, are considered as growing global problem. Over the last two decades, there has been a remarkable globalization of inflammatory bowel disease with a striking increase in especially Crohn's Disease. The rising prevalence and incidence of IBD has been recently confirmed in a global systematic review.

In recent years, scientific advances and intense research and development have led to the development of many new biological therapies to control the Crohn's Disease and Ulcerative Colitis. These therapies are shown to be effective for inducing remission, preventing complications, improving life quality of the patients, and reducing hospitalization and surgical rates .

The CCCB 2019 is an ideal opportunity for connecting health planners, decision makers, gastroenterologists, surgeons, internists, clinicians, microbiologists and other health professions in a friendly conference for the exchange of scientific advances in the diagnosis and management of inflammatory bowel diseases.

The CCCB 2019 is an exciting educational activity led by recognized thought leaders in inflammatory bowel diseases that cannot be missed. The scientific program provided a multi-disciplinary approach to the assessment, diagnosis and treatment strategies to IBD management presented by leading edge international, regional and local experts who will show the most recent data and give their valuable opinion on the clinical applications. The interactive and discussion-based format of the conference will encourage audience participation through dynamic lectures, case-based studies, and hands-on workshops.

Crohn's Colitis Conference B A H R A I N

● Objectives

The active participation in this multidisciplinary conference should enhance attendees' knowledge with the most recent innovations, trends, and concerns, practical challenges encountered and the solutions adopted in the field of inflammatory bowel diseases.
